## About

Intern Software engineer with a proven ability to adapt in both self-starting and collaborative environments while staying focused on achieving high-quality results under strict deadlines. Looking to leverage experience building responsive and scalable web apps to solve problems that delight end-users.

## Experience

### Intern Software Engineer

Versus Techonologies | 2020-2023

- Assisted in developing FindIt.lk which manages **24k+** monthly web traffic.
- Leverage REST APIs to build **100+** dynamic and interactive pages
- Participated in code reviews with the team and gained experience and feedback on writing custom, scalable code from senior software engineers.
- Assisted in developing and maintaining **6** CRM web applications.

## Projects

### Full-stack Ecommerce Website

MongoDB / Express / React.js / Nodejs / AWS  
Mongoose / Material UI / Sass / Redux

<https://mern-ecom-webapp.onrender.com/>

[chathurperera/MERN-Ecommerce-WebApp](https://github.com/chathurperera/MERN-Ecommerce-WebApp)

### Features

- User authentication using JWT web tokens.
- Storing images programmatically in a AWS S3 bucket.
- Admin dashboard to perform all CRUD operations.
- Products pagination.
- Products can be filtered by category, price, gender and etc.
- Redux toolkit is being used for the state management
- A confirmation email will be sent to users once their order has been completed
